

Advics Brake Pad Kit

AISIN, DENSO, and Sumitomo Electric, the premier original equipment brake system manufacturers in the world, have joined forces to produce ADVICS brand premium brake pads.

Features:

Kit Includes: Brake Pads with Preassembled Shims, Molybdenum Silicone Lubricant and Skin Packed for Quality Assurance.

- Consistent braking performance through the use of carbon ceramic friction material.
- Design and manufacturing under original equipment specifications assures superior quality.
- Quiet, smooth and low dust operation under all braking conditions.
- Brake shims meet or exceed original equipment specifications to achieve extreme low noise and reduce vibrations..
- Non-steel, organic formula provides longer pad and rotor life.
